David, it is noted that the link on the EPA Harvey Page for SBA shipyards only contains the validation report. I have attached the Data Package for inclusion with the validation package on the web.

thanks

We will work to update the link. Here is the data package along with the validation report. The validation report is what is on the web currently.

Subject: SBA Shipyard

Hi Katrina,

I am working on a post-Hurricane Harvey Health Consultation for NPL site SBA Shipyard.

Using the following link: https://response.epa.gov/site/site_profile.aspx?site_id=12353 ,
I am wondering if the sampling data is included in SBA Shipyard's data set. It is 5 pages and seems to include analysis methods, rather than sampling results.

Perhaps you could check it out and let me know? Any assistance would be appreciated.
